Skin, hair and make-up news we're excited about this month

Below from top, Lipstick Queen in Red Sinner and Pink Saint, £15 each, by Poppy King (020 8740 2085)

## CELEB CULT BUY

### Lipstick Queen by Poppy King

Lipsticked beauties rocked the runway at Dior and Gucci. But after years of balm and gloss, doing colour is going to take some nerve. Thank goodness for new range Lipstick Queen, created by Poppy King. It's simple - the semi-matte shades come in two formulas, Saint or Sinner. "If you prefer to play it safe, Saint is sheer with 10 per cent pigment, or you can go for the same colour in bold with Sinner, which has 90 per cent rich pigment," says King. Hmm, so are fans Drew Barrymore and Mary-Kate Olsen Saints or Sinners?

## INNOVATION... goof-proof curling

No more getting in a twist with complicated curling tongs, these babies take you to basics. Just smooth the irons through your hair, twisting as you go, and your locks will be transformed into bouncy waves. It's the same principle as running scissors over paper ribbon to create spirals. Genius!
