

RED LIPS

The 1940s starlet look — creamy skin and vermilion lips — is one of the most ravishing beauty trends. “Apply concealer to the mouth; then use a lip pencil all over the mouth, rather than just the lip line, before applying lipstick,” advises Mariel Barrera, who created the looks on these pages. The best reds include Nars Sheer Lipstick in Flamenco (see page 148) and Lipstick Queen’s creamier Red Sinner (£15)
